

Bi-Fold Doors

Specify bi-fold doors from Euroglaze and you get over thirty years of experience from one of the country's leading manufacturers of uPVC products. No one does more to make sure you get exactly the bi-fold doors your customers want.

We've invested in the latest technology, lean manufacturing processes and workforce training to provide the best possible product quality and customer service. In fact our obsession with quality means that only 0.3% of our products are rejected either internally or externally, and we're working hard to reduce that figure even further.

We're equally fanatical about making sure all our products and orders are supplied right first time and that dealing with Euroglaze is a stress-free experience. Add to that our industry-leading Marketing Support Package with its high quality literature and website designs, and our commitment to total customer satisfaction is clear.

Foils

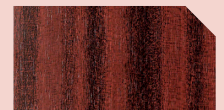

Our Edge and S706 suites come in mahogany, rosewood and golden oak foiled finishes. Plus Rehau is now offering an increasing range of coloured foils – get in touch to find out exactly what's available. Whatever colour they pick, your customers can choose either the fully foiled product on a matching base profile, or foiled one side and white on the other. All our foils come with a 5-year guarantee for complete peace of mind.

Colours

We've teamed up with Colourkote to offer your customers every colour in the spectrum. They just pick the colour they want and we'll do the rest, spraying either one side or both sides depending on what they need.
